

TerraFuel

POWDER HUMIC ACID

A high-quality humic powder with a fine particle size, specifically developed to mix easily with dry fertilizers, liquid products, and soil conditioners, improving both soil health and nutrient availability.

- Improves soil health and nutrient efficiency
- Suitable for agriculture, drilling, and manufacturing
- Easy to blend with dry and liquid systems

Guaranteed Analysis following ISO-19822 Protocol:
64% HUMIC SUBSTANCES 40% ORGANIC CARBON

INSTRUCTIONS TO USE:

TerraFuel humic powder can be applied to agricultural soils or blended with dry fertilizers and soil conditioners. It may be applied directly to soil or mixed with a suitable substrate prior to application. Conduct a small compatibility test before large-scale blending.

Do not blend with urea, nitrogen-based products, or DAP. Partially soluble in water.

APPLICATION RATES

Agronomic Crops:

2–5 kg per hectare applied to soil at planting or early growth stages.

Foliar Application:

0.25–0.5 kg per hectare diluted in water.

STORAGE AND HANDLING

Keep the container tightly sealed. Store in a cool and dry place (41–86 F). Refer to the MSDS for other safety and handling information

APPEARANCE: Black humic powder

**KEEP OUT OF REACH OF CHILDREN,
AVOID CONTACT WITH SKIN, EYES, OR CLOTHING.**
Flush skin, eyes or clothing as soon as possible
